

Create a modern and visually appealing presentation slide for a project titled

"AI SEO Blog & Content Cluster Generator for Business Websites"

Design requirements:

Background:

Dark blue/purple gradient with subtle texture Add creative elements like light bulb icons and pin/thumbtack icons

- Title at top:

"Task 3" - Main heading: "AI SEO Blog & Content Cluster Generator for Business Websites" Center container with yellow border and cream/white inner box - Include sections:

Task:

Create a prompt system that generates SEO-optimized blog posts and content clusters for business websites

1. Tools:

ChatGPT / Claude / Gemini · Google Docs / MS Word · GitHub · (Optional: Surfer SEO / Ahrefs free keyword tools for reference)

2. Skills Gained:

AI-driven SEO content creation, keyword intent mapping, blog structuring, content marketing strategy, prompt workflows for ranking content

3. Key Features:

✓ Generate SEO blog outlines (H1 –H5 structure) ✓ Write long-form blogs optimized for search intent ✓ Create internal linking ideas (content clusters) ✓ Adapt blogs for local SEO (city + service) ✓ Ensure content is helpful, readable, and business-focused

4. Deliverable:

A complete AI-generated SEO Blog Pack Add a "Full Task Details" clickable link/button at the bottom Use modern fonts, clean layout, vibrant colors (yellow, blue, white) Make it suitable for Canva or presentation slides
